Hello Meg Moore,

I really enjoyed working with you today. In the section below, I provided the notes from our appointment:

The goal of our appointment was to **Present project**.

We specifically worked on:

Presenting

Feedback notes:

Hi Meg! It was great to meet you today! Here are some things we talked about: -Loved the flow of your presentation! I thought the order was perfect. -Quite a bit of text on your slides, maybe simplify it a little! (Especially the first few slides!) This just helps so you're not reading off of the slides. -Maybe adding pictures from WordPress or something so you can show people what you have done along the way. -Split up the skills, again so it doesn't look like so much content. -When you started showing the website is when you hit ten minutes. But I really like how you showed the website so maybe the content could be a little shorter so we can still see the website because it is very interesting to see that! Unless you don't think your professor minds if you go over on time! -Umms: This is something that we do without realizing it. A lot of time this just come with practice. Make sure to be intentional about what you are saying. When we don't know what to say next we throw those umms in and those filler words. Other than that I loved your presentation! Good luck practicing and presenting!

If you have any further questions or need help on another presentation, please let us know and we can schedule another appointment. Also, we love giving feedback but we also love receiving it. So, please take this quick 2 minute survey to better help us serve you the next time you come in: [Feedback Survey Link](#)

Thank you for visiting and we look forward to meeting with you again soon!

Sincerely,

Brynn Hull
Presentation Practice Center Tutor

Good luck on your presentation
